Department for Education

**Term 1 Week 5 – 28th February 2019 Principal: Dina Zunis**

**Respect Integrity Caring Commitment Honesty**

We welcome back Ms Jo Holland as our Auslan teacher and Ms Amanda Cullen our Auslan SSO. Chris Pavlou has returned as our Grounds person and Ashley Kok (from iPau) is our IT Technician. I take this opportunity to acknowledge and thank Jody Byerley for her work whilst placed here in a temporary 5 week position as the Pastoral Care Worker. We wish her every success as she heads back to Craigmore South Primary.

We welcome Michelle Roberts who has been appointed to our school as the new Pastoral Care Worker for the rest of this year. We wish Michelle a great start in Week 6 and look forward to her joining the staff team and our school community of learners.

## **2019 successful Parents Initiative In Education (PIE) Grant**

We would like to inform the community that planning is underway to establish our 'Multicultural Cooking and Gardening Program'. The committee hosted a Morning Tea earlier this month so that families could learn more about the initiative and how they could become involved. We were overwhelmed by the response and pleased to see so many families express an interest. The morning proved to be a hit with some home-cooked cultural dishes being shared and a herbal plant donated by the Kundoo family. Our vision at this stage, is to utilise some of the garden beds outside the hall to plant an array of herbs and vegetables that will later be used in our cooking programs. As part of our grant initiative, we will also be utilising a section of the nature play area which will be cultivated as a garden area. We have sent out emails seeking parent input as to which seedlings are to be purchased or donated. Please feel free to contact either Priscilla Harris or Mandy Dicker if you would like to be involved in this exciting initiative.

## Student Leadership 2019

Leadership is about the art of motivating, influencing and directing people so that they work together to achieve the goals of a team or broader organisation. It is important for students to experience leadership opportunities during their schooling, to learn the art of building relationships within teams, defining identities and achieving tasks effectively. It also provides an opportunity to learn to identify and display effective communication and interpersonal skills. Student voice is a highly valued aspect of learning at North Ingle School and many students are willing to give of their own free time to assist others within the school community.

Congratulations to all our newly elected and appointed student leaders for this year. The students received their badges at a recent whole school assembly.

“Oral language lays the foundation for the reading and writing skills children will develop as they enter and progress through school. They will use oral language in all aspects of their education, in the classroom as they connect with their peers and teachers, and throughout their lives as they grow into adulthood. Having a solid foundation in oral language will help children become successful readers and strong communicators as well as build their confidence and overall sense of well-being.”

~Erin Reeder

# Team 45 ORAL Language

Team 45 have begun work on building our oral language skills. Each week we have a deliberate focus on activities to help grow these skills. We have introduced various games and have been learning how to play them, with much enjoyment!

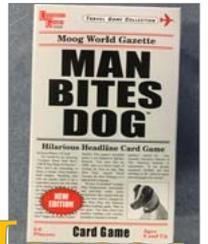

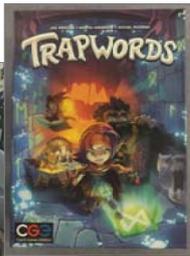

There were some hilarious stories told during this game of 'Wing It'. "We get to use more words than we know which helps us build our vocabulary. We laughed at some of the nonsense words."

~ Emma

Above. Students formed creative newspaper style headlines while playing the game 'Man Bites Dog'. I love the way they decided to use the dictionary to support the game. This game is great way of developing the skill of looking at headings in a distinctive style.

Left. A group figures out the best strategies while playing 'Trapwords'. This game is a little more complicated but offers rich opportunities for verbal interactions within the group.

## Playing at Home

Playing games together as a family to develop oral language and vocabulary at home is highly recommended. It makes such a dramatic difference to your child's learning when their vocabulary and oral language skills are strong. Playing at home can only help these skill grow. Many of these games have been purchased from Games World who have a vast selection, however you can find many games for free online or for a low cost at many stores.

**We would love to hear about your game playing adventures at home. Also, if you find a game to help build oral language and vocabulary skills, let us know. We're always on the lookout for great games!**

The concept of a Barrier Game is to verbally instruct your partner(s) to generate the same product as you create without seeing how you are constructing it. These games can be played in a number of ways, however today we played with white boards and markers.

Laughter was definitely one of the primary products of the game.

"Kredence and I enjoyed playing this game to help us learn to give clear instructions." ~ Evan
