

# NORTH INGLE SCHOOL & PRESCHOOL

Monday 17<sup>th</sup> November 2025

Dear Parents and Carers,

I am writing to let you know that our school has been identified as one of several sites across Australia that received a coloured sand product recently recalled by the ACCC due to asbestos concerns.

As soon as the Department for Education was made aware of the recall, all affected sites were directed to immediately stop any use of coloured sand products and to secure any potentially impacted materials. Our site has followed these instructions and isolated any sand that may be affected.

The Department for Education is working closely with SafeWork SA and specialist experts to safely identify, remove and test all recalled materials at affected schools and preschools. As a precaution, no students or staff will be permitted to access the sand or any area where it was used until it is confirmed to be safe.

There is no indication at this time of any health impacts among students or staff related to this product at our site. The health and safety of our school community remains our highest priority, and we are following national safety protocols throughout this process.

As further information becomes available, including the outcomes of testing and next steps, we will keep you informed.

Please don't hesitate to call if you have any concerns or require further information.

Kind regards,

Dina Zunis

Principal

North Ingle School & Preschool
